### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Percy Square on 7/12/2004.

The application has been amended as follows:

In claim 1, line 10, after "collimating light", -- outside the band of incident light -- has been inserted.

In claim 1, line 13, "vertically" has been deleted.

In claim 5, line 11, "vertically" has been deleted.

In claim 9, line 11, after "collimating light", -- by reflecting light outside the band of incident light -- has been inserted.

In claim 13, line 11, after "light source", -- , reflecting light outside of the band of incident light -- has been inserted.

The following is an examiner's statement of reasons for allowance:

None of the prior art taught or suggested collimating light with a cholesteric layer by reflecting light outside the band of the incident light. Typical uses of cholesterics were to polarize or color light.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
